

Tata delivers a complex insurance system on-time and within budget.

Tata Consultancy Services success story using PlatformPlus

The Challenge.

Existing:

On a fixed-bid project, Tata was unable to deliver a regulatory activity-planning and tracking system due to complexity.

Required:

Tata needed advice from enterprise software experts and the efficiency gains from automation tools to maximize their team's productivity.

The Approach.

Tata Consultancy worked with the Modularis Advisory Team to set a course and establish the design before developing the new system using Accelerator.

The Outcome.

In addition to being on-time, on budget and in-scope the new system achieved the following:

Tata delivered on its commitment exceeding its client's expectations.

A development team of 5 completed the system that was estimated for a team of 12.

ROI achieved in 60 Days

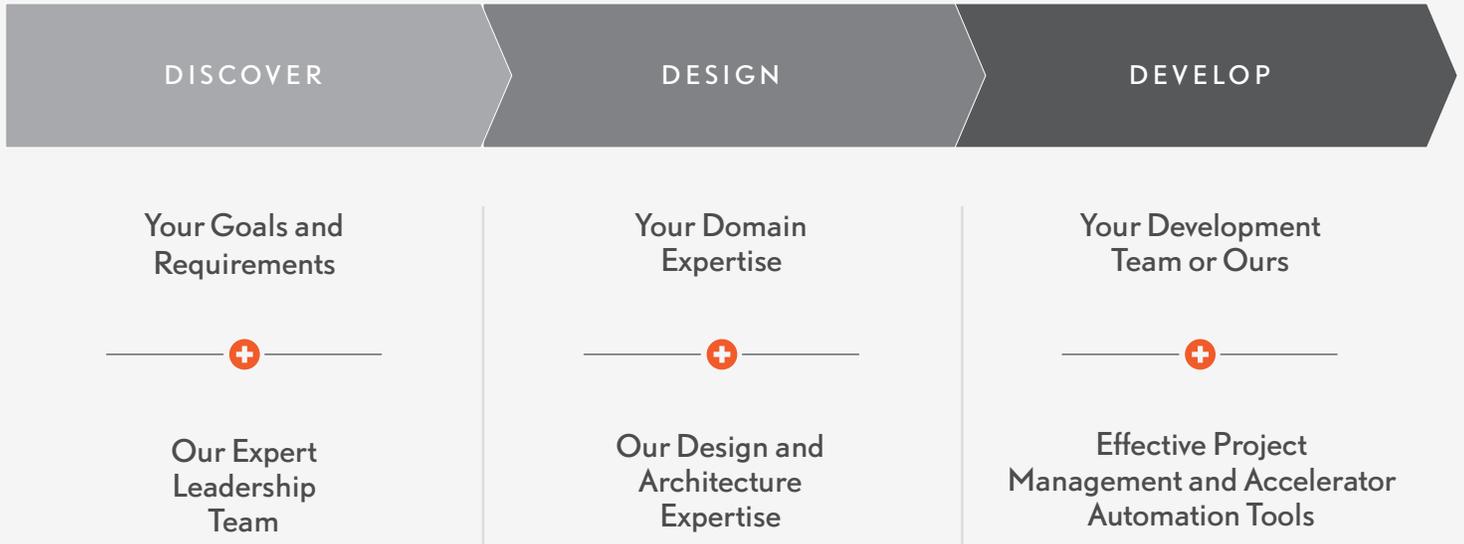

"We had no room for error on this project. The entire Modularis team delivered exactly what we needed. A complex application on-time, under budget."
